Attached are my initial comments based on a cursory review. I did not attempt to replicate the surface water PRGs/AWQC. In my opinion, they should have provided the PRG Calculator's input/output sheets for verification.

Thanks,
Shanna

This document was distributed to the EIT today, for discussion tomorrow. I haven't had a chance to review it yet. I can take any initial/informal feedback you have by noon tomorrow, otherwise we will review over the next few days and send comments next week.
